## **SHADE SAILS**

In Indonesia, we understand the need for outdoor shading, that's why we sell shading solution that is lightweight yet attractive. Simply hang these shade to a wall or add posts to install these shade canopies. For large outdoor space, hang two or three overlapping materials to create the "sail" effect that is attractive yet functional. Shade sail material is lightweight with little holes to let the sunrays in so covered area still have natural lighting.
